

MALIHA MOHIT

Dhaka, Bangladesh
+8801860218802 | malihamohit12@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science & Engineering graduate with hands-on experience developing database-driven web applications using Python, Django, JavaScript, PostgreSQL, HTML5, and CSS3. Experienced in backend development, authentication, business logic, CRUD operations, database management, form validation, and responsive web interfaces. Regularly use GitHub Copilot for implementation guidance, debugging, problem solving, and code refinement while reviewing and testing AI-assisted solutions. Strong problem-solving and analytical skills with an interest in building reliable and maintainable software.

TECHNICAL SKILLS

Languages: Python | JavaScript | SQL | HTML5 | CSS3
Frameworks: Django | React (Basic) | Bootstrap 5
Database: PostgreSQL | MySQL
Development Tools: Git | GitHub | VS Code | pgAdmin
Core Skills: Problem Solving | Analytical Thinking | Debugging | Teamwork | Communication | Adaptability

PROJECTS

Bank Account Transaction Management System

Python | *Django* | *PostgreSQL* | *HTML5* | *CSS3* | *Bootstrap 5*

• Developed a secure web-based banking system using Django and PostgreSQL with user authentication and account management.
• Implemented deposit, withdrawal, transaction history, search/filtering, pagination, CSV export, and monthly transaction summaries.
• Applied Django ORM, form validation, authentication, authorization, and user-data isolation to protect account and transaction records.
• Used ChatGPT and GitHub Copilot for implementation guidance, debugging, problem solving, and code refinement while reviewing and testing AI-assisted solutions.
