MALIHA MOHIT

Junior Software Engineer | Python & Django Developer

Dhaka, Bangladesh | +8801860218802 | malihamohit12@gmail.com | GitHub | LinkedIn

PROFESSIONAL SUMMARY

Computer Science and Engineering graduate with hands-on experience building web applications using Python, Django, JavaScript, and PostgreSQL. Familiar with developing CRUD operations, authentication, database-driven features, and responsive user interfaces. Experienced in using Git, GitHub, and AI-assisted development tools such as ChatGPT and GitHub Copilot for debugging and problem-solving. Interested in contributing to software development teams while continuing to strengthen technical skills.

TECHNICAL SKILLS

Programing: Python | JavaScript | SQL | HTML5 | CSS3
Frameworks & Libraries: Django | React | Bootstrap
Database: PostgreSQL
Tools: Git | GitHub | VS Code | pgAdmin
AI-Assisted Tools: GitHub Copilot | Antigravity | ChatGPT
Other Skills: Analytical Thinking | Problem Solving | debugging | Teamwork | Communication | Adaptability

PROJECTS

Bank Account Transaction Management System

Python | Django | PostgreSQL | HTML5 | CSS3 | Bootstrap 5

- Developed a database-driven web application with user authentication, account management, and transaction workflows.
- Implemented deposit, withdrawal, transaction history, search/filtering, pagination, CSV export, and monthly transaction summaries.
- Applied form validation, authentication, authorization, and user-data isolation to maintain accurate and secure transaction records.
- Tested application workflows and investigated issues during development to ensure expected system behavior.
- Used debugging and problem-solving techniques to identify and resolve application issues.

Career Journey — Job Application Tracker

Python | Django | PostgreSQL | HTML5 | CSS3

- Developed a web-based application for managing and tracking job applications and related information.
- Implemented CRUD workflows for creating, updating, viewing, and managing application records.
- Worked with database operations and validated application workflows during development.
- Investigated and resolved implementation issues through debugging and testing.

Urban Threads — Single Vendor E-commerce Website

Django | JavaScript | HTML5 | CSS3 | Bootstrap | PostgreSQL

- Developed a full-stack e-commerce application with product browsing, category filtering, search, product details, and shopping cart functionality.
- Implemented backend business logic and database operations using Django and PostgreSQL.
- Tested key user workflows including product search, filtering, product selection, and cart operations.
- Used debugging and validation to identify and resolve issues during development.

PROFESSIONAL EXPERIENCE

Welfare & Compliance Officer

Max Sweater (BD) LTD. | Oct 2024 – May 2025

- Coordinated with cross-functional teams and communicated with employees to understand and address workplace concerns.
- Investigated reported issues and assisted in resolving them through clear communication and appropriate follow-up.
- Maintained accurate documentation and prepared regular reports for workplace activities and concerns.
- Followed up on reported issues and communicated with relevant teams to support timely resolution.
- Handled sensitive queries professionally while maintaining attention to detail and confidentiality.

EDUCATION

Bachelor of Science in Computer Science & Engineering

Prime University, Dhaka

CGPA: 3.52 / 4.00 | Graduated: 2024

PROFESSIONAL TRAINING

Full Stack Web Development — OSTAD | March 2026 – Present | Python, Django, REST API, React & AI-assisted developement

Responsive Web Design — freeCodeCamp | 2024 | Trained in HTML & CSS

LANGUAGES

Bangla: Native | English: Fluent
